

## Five ways to increase revenue with Ruby.

Exceptional experiences translate into a better bottom line. Create first impressions that count with a team of award-winning receptionists on your team!

1

### Earn business with every answered call.

When you don't answer, the competition will. Turn more callers into clients when live virtual receptionists serve as an extension of your office.

2

### Elevate experiences & reduce overhead.

Rubys are never sick, late, or on vacation—and come at a fraction of the cost of a single in-house employee.

3

### Reclaim your focus.

Funnel your energy toward the future of your business while resting assured that your brand is being represented with enthusiasm.

4

### Stay mobile.

Your business is just as mobile as you are when Ruby hosts your business number. Text and call out from your business line all from your personal cell phone!

5

### Foster loyalty with human connections.

Build trust and meaningful relationships for a quantifiable ROI that takes shape as increased referrals and returning opportunities.
