The word on Ruby	

The business call is back.

Did you know that, of all the ways they can contact businesses, customers still prefer to make phone calls?

In fact, every year, more than 170 billion calls are made from mobile click-to-call alone.¹

Businesses big and small are seeing an explosion of inbound calls. Thanks to smartphones, the very minute a potential customer has a need, they can find a business that meets it.

65%

of people have used a phone to call a business in the past month²

42%

of people pick up the phone to call a business at least once a week³

59%

of people call a business at least a few times a month⁴

Missed calls are missed opportunities.

Potential customers are phoning in, and if you aren't answering their calls, you're driving them straight into the arms of your competitors.

What's more: If you're picking up but fail to make a good impression, **you stand to lose out on a lot more than a single sale.**

OF PEOPLE WHO CALL A BUSINESS:

58%

are calling to make a purchase of \$100 or more.⁵

24%

are calling to make a purchase of \$500 or more.⁶

74%

of customers say they are very likely to choose another business after a poor phone experience.⁷

Word-of-mouth continues to be the most effective form of marketing. While positive reviews earn referrals and help your business flourish, **a poor customer service reputation can be irrevocably damaging to your company.**

Most small business owners cannot afford to miss a call from their next big customer, but balancing the lengthy list of operational to-dos with a quality customer service experience (let alone a ringing phone) can be a nearly impossible feat for many.

OF PEOPLE WHO HAVE A BAD PHONE EXPERIENCE:

70%

are likely to complain to friends and family.⁸

30%

are likely to leave a negative review.⁹

How it works

SAMPLE CALL FLOW B:

If you're in a meeting, on the go, or otherwise can't come to the phone, your virtual receptionist can typically take messages or connect callers to voicemail—without first trying your line.

A RECEPTIONIST WILL:

- ✓ Greet your caller
- ✓ Offer to take a message or transfer to voicemail
- ✓ Forward the call details to you, including any messages
- ✓ If you'd like, receptionists can also let callers know when you're in a meeting, busy, or unavailable to take their call
